

national organizations and institutions to strengthen capacity (R1)	(support to countries: workshops/trainings)	in national and district training events	in national and sub national training events	in national and district training events	in national and district training events	in national and provincial training events	in national and sub national training events	in national training events
ToT events are held to strengthen capacity (R1)	<b>1</b> Training of Trainers ( <b>23</b> participants) event 23-27 November 2009:	2 participated in regional ToT  National ToT (January – February 2010)	4 participated in regional ToT	3 participated in regional ToT	4 participated in regional ToT  National ToT (Jan/Feb/Mar 2010)	3 participated in regional ToT		
IPC analytical workshop at regional, national, sub-national levels are held to enable production of IPC products (R2)	<b>1</b> regional technical workshop 6-9 October 2009: ( <b>83</b> participants)	<b>3</b> national analytical workshops (Feb 2009; July 2009; Feb 2010)	<b>3</b> analytical workshops (Feb 2009; July 2009; Feb 2010)	<b>2</b> analytical workshops (March 2009; Sep 2009)	<b>2</b> national analytical workshop (April and Sept 2009) 1 sub national workshop : Karamoja region May 09)  <i>- 1 workshop foreseen for April 2010)</i>	26 provincial analysis workshops  2 national analysis workshop (Jul 2009, Mar 2010);	1 Sub-national analysis workshop for SNNPR (“pilot phase”).	2 national analysis (Jul 2009 and Feb/March 2010)
Technical support and training provided to IPC technical working groups (R2)	- Support to countries - 23-27 November 2009: ToT	- Support to technical working group	- Support to technical working group	- Support to technical working group	- Support to technical working group	- Support to technical working group	- Support to technical working group	- Support to technical working group
Country capacity assessments and institutional mapping exercise are conducted to define training and strengthening needs (R3)		Yes, trainings underway	Yes, trainings underway	Yes, trainings underway	Yes, trainings underway	Yes, trainings upcoming	Yes, trainings underway	Yes, trainings underway  Institutional mapping completed

Technical support to decentralize IPC activities to provincial, district... (R3)		- March – April 2010 : training at district levels	- Trainings of district and national level analysts	Trainings of district level food security and nutrition assessment teams (FSNAT) in pilot districts of Mwtara and Lindi:	- Trainings at district and national level	On going (provincial level trainings)	Trainings at sub regional level	Trainings of district and national level analysts
Technical support is provided to national FS coordination mechanisms to establish IPC technical working groups (R3)	Technical working groups established in all 7 project countries with regional support	National IPC Technical Working group established.	National IPC Technical Working group established.	National IPC Technical Working group established.	National IPC Technical Working group established.	National IPC Technical Working group established.	National IPC Technical Working group established. DRMFSS took the lead of coordination	National IPC Technical Working group established.
Technical support is given to national IPC coordination mechanisms to enable the transfer of IPC functions and responsibilities away from project activities (R3)		Training of Gov and local staff, workshops organization	Training of Gov and local staff, workshops organization	Training of Gov and local staff, workshops organization	Training of Gov staff, workshops organization	Training of national and local Gov staff	Training of national and local Gov staff	Training of national and local Gov staff
Lessons learning workshops are held and reports produced following IPC analytical (R4)	Dedicated regional Lessons Learning exercise carried out during regional analytical workshop  LL exercise to be organized June 2010 (indicatively)	- Lessons Learning Exercise has been organised June 2009	- Dedicated sessions during national analytical workshops (Feb 09, Jul 09, Feb 10) - Lessons learning workshop foreseen for May 2010	- Lessons learning workshop foreseen for May/June 2010 and a dedicated session foreseen as part of the MUCHALI training (April 2009)	- Lessons learning workshop Jan 2010 + - Dedicated sessions during national analytical workshops (April 09 and Sept 09 + Karamoja region May 09)	- Dedicated sessions during national analytical workshops (Apr 09 and Mar 10 + Karamoja) - Lessons learning workshop foreseen for Jun 2010		- 1 Lessons learning

**RESULTS:**

R1. Capacity in FS analysis and classification, using standardized approach, is strengthened at national and regional level

R2. Standardized analysis of fs is available in each project country and integrated into regional and global analysis

R3. IPC multi-stakeholder approach is well integrated into existing fs analytical systems, institutions and structures, and IPC products are utilised as part of normal fs analysis in the countries

R4. Best practices and lessons learned are gathered and disseminated and used to improve future country-level activities and global development of fs tools
