</tr>
</tbody>
</table>

**LOGFRAME OVERVIEW IPC ASIA**

### Outcome 1:
A Multi-partner ownership is effectively governing IPC at the global, regional and national levels, with Regional and National Governments taking a leading role, and IPC is institutionalized within partner structures, frameworks and strategies.

#### PRODUCTS AND SERVICES
- Country IPC TWGs led by National Governments plan and implement IPC activities
- The IPC tool is integrated in ASEAN / AFSIS frameworks & is utilized and supports country / regional information systems
- IPC is integrated in other relevant Country or Regional Food Security Institutions or existing frameworks
- Establishment of an active Regional Steering Committee that provides guidance on effective strategy formulation, promoting institutionalization and advice in positioning IPC within broader food and nutrition security governance

#### OUTPUTS
1.1: The IPC Global SC and the Regional and Country Level IPC TWG are effective multi-stakeholder owned processes that are leading the roll-out of the IPC at the global, regional and country level, respectively.
1.2: IPC is institutionalized within Regional International Governmental Bodies and National Government institutions and is integrated into their programmes, policies and frameworks
1.3: IPC is institutionalized within IPC global partner agencies and integrated into global programmes, strategies and frameworks

### Outcome 2:
IPC food security analysis is professionalized and IPC Regional, Country and Global partners have increased and decentralized technical capacity in IPC.

#### PRODUCTS AND SERVICES
- Country TWGs are effectively trained in IPC and actively lead, participate and own IPC analysis and activities as per certification programme, incorporating the ISS
- Encourage cross-fertilization across countries and creation of a regional community of IPC users

#### OUTPUTS
2.1: IPC technical capacity is widespread in partner agencies, decentralized at regional and national levels, and professionalized with the IPC Level 1, 2 and 3 Certification.
2.2: IPC tools, training and learning materials are developed at high standard, easily accessible and effectively used
2.3: IPC is integrated into academic, university and/or center of excellence curricula and programmes
## IPC GLOBAL STRATEGIC PROGRAMME (2014-2016)

### MISSION GOAL
CONTRIBUTE TO THE ERADICATION OF WORLD HUNGER AND FOOD INSECURITY

### STRATEGIC OBJECTIVE
IPC IS USED BY DECISION MAKERS WORLDWIDE PROVIDING EVIDENCE AND STANDARDS FOR BETTER DECISIONS AND IS EFFECTIVELY INFORMING IMPROVED EMERGENCY AND DEVELOPMENT PROGRAMMING AND POLICY

**STRATEGIC OBJECTIVE INDICATOR:** IPC IMPACT ON DECISION MAKING AT THE GLOBAL, REGIONAL AND COUNTRY LEVEL (METHODOLOGY - BASELINE, MONITORING, AND END LINE IPC IMPACT STUDY)

### LOGFRAME OVERVIEW IPC ASIA

#### Outcome 3:
IPC products are of high quality and relevant for decision makers through continuous application, learning and technical development of the tools.

**PRODUCTS AND SERVICES**
- Country IPC TWGs led by National Governments are generating comprehensive IPC analysis relevant for decision making
- Countries in the region are implementing IPC as per global standards AND Country level analysis steadily increases in quality & rigour of analysis
- Both inter-regional & country-level lessons learning are captured and a clear feedback mechanism in place to the IPC Regional & Global Support Units
- Contribute to the global technical development of the IPC tool
- Foster linkages with Academic and research organizations to apply and link the IPC tool in newer areas of food security analysis such as Climate Change & Urban food security, as well as to validate and improve exiting IPC work in Asia

**OUTPUTS**

1. **3.1:** Countries are implementing IPC as per global standards and compliance, with high quality of analysis and products across regions and countries
2. **3.2:** IPC chronic and acute tool continue to be relevant through ongoing lessons learnt and technical development
3. **3.3:** IPC tools for a more comprehensive IPC food and nutrition security classification system are piloted and developed
4. **3.4:** Applied research partnerships are formed to improve linkages of IPC with emerging priority areas including climate change, resilience and gender

#### Outcome 4:
Global, Regional and Country level decision makers have access to timely and relevant IPC analysis to inform programming in emergency and developmental contexts.

**PRODUCTS AND SERVICES**
- IPC analysis is conducted on a needs-based manner, and analysis results are disseminated in an appropriate and timely manner
- Country IPC products are disseminated and used for advocacy at regional level
- Country IPC output is effectively linked to informing decision making and policy formulation at national level
- Programming and policy formulation exercises are undertaken based on IPC analysis results

**OUTPUTS**

1. **4.1:** Decision makers understand the IPC tool and can apply it for improved programming and policy
2. **4.2:** Decision makers have appropriate and timely IPC messages and recommendations for actions
3. **4.3:** IPC Strategic Decision Maker Engagement Plan is implemented at global regional and country level for increased impact
4. **4.4:** IPC Acute and Chronic analysis is effectively informing emergency response and development programming and policy
