

Overview

Limit overview text to 400 words. Font: 11/13 Myriad Pro light

Summarize the general acute food insecurity situation in the country, including the following aspects:

How severe, how many and when: The number of people facing acute food insecurity in need of urgent action, how severe and for which period. Estimates must be rounded up or down according to standard rounding rules and be consistent with the above table.

Where and who: The most affected areas and populations.

Why: The main factors driving the current and projected acute food insecurity situation.
