

Acute Malnutrition | November 2023 - October 2024

The number of 6-59 months children acutely malnourished

Number of pregnant or breastfeeding women acutely malnourished

Overview

Limit overview text to 300 words. Font: 11/13 Myriad Pro light

Summarize the general acute malnutrition situation in the country, including the following aspects:

How Severe, How Many and When: the number of acutely malnourished children in the current period. Indicate how severe the situation is for the projected period. Estimates must be rounded up or down according to standard rounding rules and be consistent with the above table.

Where: the most affected areas and populations.

Why: the main factors driving the acute malnutrition situation.
